

Annual Margin Sharing Credit Rate Update Rates Effective July 1, 2024

On May 15, 2024, Great Plains Natural Gas Co. (Great Plains or Company) filed with the Minnesota Public Utilities Commission (MPUC) its annual Margin Sharing Credit (MSC) Annual Report and Rate Update reflecting the results of the April 1, 2023 through March 31, 2024 time period as well as an Incentive Compensation refund and any remaining true-up of the former Revenue Decoupling Mechanism. The MSC rates are being updated in compliance with Great Plains' Revenue Decoupling Mechanism tariff which directs the Company to file annual adjustments to its rates by May 15th of each year with the rates to be effective July 1.

The MSC credits all Great Plains' Minnesota customers for the actual margin received from a large interruptible customer from a base level of revenues established in the Company's most recent rate case. The rates are shown as a separate line item on your bill and identified as Margin Sharing Credit.

The current and new rates are shown by customer class in the table below.
